| Description General information:         | Value                   |
|--|-------------------------|
| Product name:                            | NK 50-250/263           |
| Product name.                            | AA1F2AESBAQEKW3         |
| Product No:                              | On request              |
| EAN number:                              | On request              |
| Гесhnical:                               |                         |
| Pump speed on which pump data are based: | 1450 rpm                |
| Rated flow:                              | 46.8 m³/h               |
| Pump with motor (Yes/No):                | Υ                       |
| Rated head:                              | 19.4 m                  |
| Actual impeller diameter:                | 263 mm                  |
| Nominal impeller diameter:               | 250                     |
| Shaft diameter:                          | 24 mm                   |
| Code for shaft seal:                     | BAQE                    |
| Mechanical seal type:                    | Single                  |
| Curve tolerance:                         | ISO9906:2012 3B2        |
| Pump version:                            | A1                      |
| Bearing design:                          | Standard                |
| Materials:                               | _ 100.100.01 d          |
| Pump housing:                            | Cast iron               |
| Pump housing:                            | EN-GJL-250              |
| Pump housing:                            | ASTM class 35           |
| Wear ring:                               | Brass                   |
| Impeller:                                | Cast iron               |
| •  | EN-GJL-200              |
| mpeller:                                 |                         |
| mpeller:                                 | ASTM class 30           |
| nternal pump house coating:              | CED                     |
| Material code:                           | A                       |
| Code for rubber:                         | E                       |
| Shaft:                                   | Stainless steel         |
| Shaft:                                   | EN 1.4301               |
| Shaft:                                   | AISI 304                |
| nstallation:                             |                         |
| max amb:                                 | 60 °C                   |
| Maximum operating pressure:              | 16 bar                  |
| Pipe connection standard:                | EN 1092-2               |
| Type of inlet connection:                | DIN                     |
| Type of outlet connection:               | DIN                     |
| Size of inlet connection:                | DN 65                   |
| Size of outlet connection:               | DN 50                   |
| Pressure rating for connection:          | PN 16                   |
| Coupling type:                           | Flexible w/o spacer     |
| Base frame design:                       | C-channel               |
| Code for base frame:                     | 15                      |
| Grouting (Yes/No):                       | N                       |
| Connect code:                            | F                       |
| Liquid:                                  |                         |
| Pumped liquid:                           | Water                   |
| iquid temperature range:                 | 0 120 °C                |
| Selected liquid temperature:             | 20 °C                   |
| Density:                                 | 998.2 kg/m³             |
| Electrical data:                         | <u> </u>                |
| Motor type:                              | 112MA                   |
| IE Efficiency class:                     | IE3                     |
| Rated power - P2:                        | 4 kW                    |
| Mains frequency:                         | 50 Hz                   |
| Rated voltage:                           | 3 x 380-420D/660-725Y V |
| NEIDAL VUIIGUE                           | 0 X 000-420D/000-1201 V |
| Rated current:                           | 8,45-7,65/4,85-4,45 A   |
